

SEAT COPA

COPA

COPA

LIFE IS BETTER WHEN IT'S UPGRADED.

Who doesn't like to get a little more for less? Two scoops of ice cream for the price of one. Well, that's the idea behind our special edition Copa range. We give you an extra helping of all the comfort, technology and design features you desire for a price that's even more attractive. With Copa, optional becomes standard and everything you wanted in a SEAT becomes a reality.

Take a look at all the upgraded features for Ibiza SC, 5dr, ST and Leon at www.seat.co.uk.

SEAT IBIZA COPA

PERFECT JUST GOT AN UPGRADE.

How do you improve a car that already blends sport and style effortlessly? By loading it with even more design, comfort and technology. For your enjoyment, the Ibiza Copa offers 16" alloy wheels, dark tinted windows, climate control and more – all for a price you wouldn't expect. Best of all, the Copa upgrade is available for all three bodystyles of the Ibiza. Because what would perfection be without choice?

SEAT LEON COPA

THERE'S MORE TO THIS 5-DOOR THAN MEETS THE EYE.

Underneath its sporty exterior, the 5-door Leon Copa offers a world of upgraded comfort and technology ideally suited to weekends away – and not to the track. Upgraded seats with special Copa upholstery and dual-zone climate control ensure the highest level of comfort for driver and passenger. Light and rain sensors are an added luxury that activate the lights and wipers when needed. And the SEAT Media System 2.1 will keep the kids happy. All this and more for a price that'll make you smile, too.

E ECOMOTIVE

UPGRADED CAN ONLY MEAN ECO-FRIENDLY AS WELL.

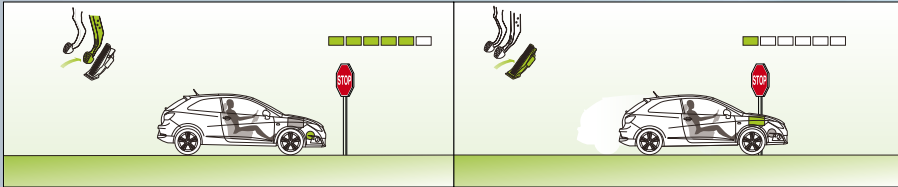

We couldn't offer an upgraded range of vehicles without also ensuring they met the highest standards in eco-efficiency. So every Copa model is available as an Ecomotive with a Common Rail engine that offers quieter, cleaner performance. A 1.6 TDI CR 105PS powers the Leon Ecomotive, while a 1.2 TDI CR 75PS keeps all three Ibizas running green but gutsy. Ecomotives also utilise Start/Stop and Energy Recovery Systems. Lower emissions can help you pay less road tax, while improved fuel efficiency will keep you smiling at the pumps too. Even the Copa badge gets a makeover to remind you of the green choice you've made. How's that for an upgraded experience?

C O P A

When the car is stopped, the gear lever set to neutral and clutch pedal is released, the Start/Stop System switches the engine off. Once the clutch is engaged again the engine starts automatically.

An Energy Recovery System works on the power absorbed by the alternator, to recover energy combining high and low cycles of absorbed power, depending on the driving needs, then feeds it back into the electrical system during acceleration. This system helps you reduce the fuel consumption level, and consequently the CO₂ emission levels when driving.

SEAT is committed to a policy of continuous product development and reserves the right to make changes to specifications, colours and prices without notice. The information in this leaflet can therefore be given as guidance only. While SEAT makes every effort to ensure that specifications are accurate at the time of publication (**February '11**), you should always check with your authorised SEAT dealership for the latest information. Due to limitations of the printing process the colours reproduced in this leaflet may vary slightly from the actual paint colour and material. These vehicles and all their parts, as well as the original spares, were designed according to the Legal Regulations governing the prevention and minimisation of Environmental Impact, through the use of recycled/recyclable materials, with measures taken to achieve suitable recycling for the conservation and improvement of environmental quality. SEAT UK has made provision for the correct disposal and recycling* of all SEAT Vehicles when they are delivered by the customer to its national network of Environment Agency authorised treatment facilities. This service is offered at no cost to the last holder and applies to SEAT vehicles of any age which are substantially complete. The service is provided by Cartakeback.com and to find your nearest facility contact 0870 8505303 or browse to www.cartakeback.com. *Since 2006 all vehicles returned to SEAT were certified by UK Government to be recycled to 85%. This leaflet has been produced from Hello Silk paper which is Forest Stewardship Council certified.
